I am an artificial intelligence student passionate about what we have not yet intuited. I'm learning to be able to discover new ways to exploit the technologies we have, and why not, develop new ones. I am open to any commitment that can challenge me and to which I can devote myself completely. Oh yeah, I also love playing D&D and creating online content

WORK EXPERIENCE

Technical Lead Certimeter Group

10/2019 - 05/2020

Turin

Achievements/Tasks

- I lead a team of 4 people, with whom I manage various web projects, both as a back-end developer and as a PM. The status of the commissions taken on may vary from a starting phase with relative evolution to only maintenance and technical support. I carry out my work partially on site and partially by the client, with whom I relate to present any demos, reports, requests or support.

Developer Augens S.r.l.

07/2019 - 10/2019

Turin

Back-end development for Turin municipality

- I held the role of curricular intern at Augens S.R.L. as a backend developer. The work for the municipality of Turin involved the development for the back office of a back-end in java 1.8 with framework spring, deployed with ANT by jboss 6. The creation of end-points via REST API for communication with a front-end developed in Angular 6 by a colleague, to whom I gave my support.

EDUCATION

Bachelor's Degree in Computer science Università degli Studi di Torino

2016 - 2019

Turin (Italy) 97/110

Master's degree in Artificial Intelligence Alma Mater Studiorum - Università di Bologna

2020 - Present

Bologna

SKILLS

Java

Python

Computer Vision

Unix

Natural Language Processing

Machine Learning

Deep Learning

Image Processing

PERSONAL PROJECTS

Youtube Channel (06/2015 - Present)

- I created a channel to talk to undergraduates and computer science students. As it is growing, I am thinking of expanding the topics and talking about artificial intelligence (possibly also in English)
